

Supporting Students with Autism in the General Education Setting: Strategies for School Administrators and Teachers

This training will focus on proactive strategies, that reduce the likelihood of challenging behaviors. Strategies will include ways of increasing predictability, preparing students for change, academic and social-emotional instruction and supports. The new book that she is co-authoring, Starting the School Year Well—And What to do if Things go Awry: An Autistic-Student-Centered Approach to All Year Success, will be out on July 15th.
