

TRANS PECOS GRAZING LAND COALITION PRESENTS:

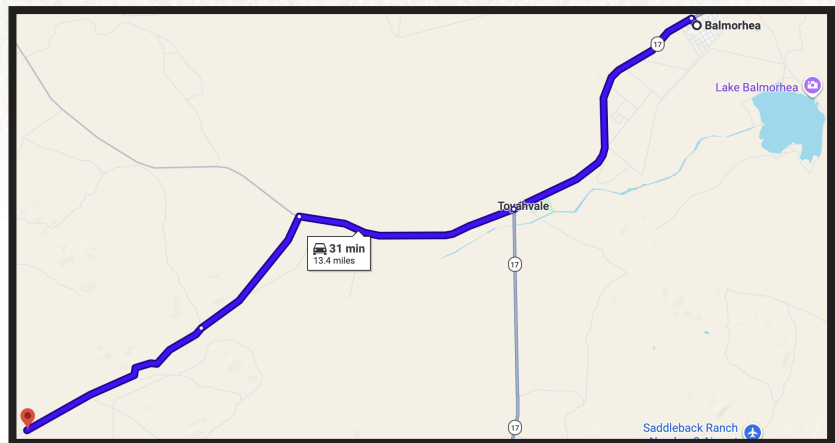

CONSIDERING THE DISK CHAIN DIKER

May 7, 2026 | 10:00 AM - 3:00 PM

Timber Mountain Ranch - Balmorhea, TX

Join Trans-Pecos GLC for lunch and a look at the disk chain diker. Ti Beall of Heart Bar Land Services, LLC will give a demonstration on the disk chain diker, an implement used to reduce brush and create small divots which collect water and promote herbaceous forage growth. Below, you'll find a photo of the implement in action, as well as a results photo from the same site a year post project completion.

For catering purposes, please RSVP by May 6. To do so, contact Jenny Pluhar at 806.679.8729 or jenny@texasglc.org, or Ti Beall at 361.212.4243 or heartbarlandservice@gmail.com.

From Balmorhea, head southwest on TX-17 S for 4.4 miles. Continue straight onto FM 3078 and follow it for 3.4 miles. Then, turn left onto Madera Canyon Rd and follow for 5.5 miles. Or, scan the QR code for a dropped pin to the location.
