Washington, DC 20515

May 10, 2024

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Frisco Police Department Public Safety Technology Project in fiscal year 2025. The entity to receive funding for this project is the City of Frisco, Frisco Police Department, located at 7200 Stonebrook Parkway Frisco, Texas 75034. The funding would be used to upgrade agency in-car video, interview room video, and body worn camera video to with an established leader in the industry. The projected funds include all equipment, required software, installation, and unlimited cloud storage for five years. The most valuable aspects of the agreement include: a five-year one hundred percent warranty for all equipment, all software and equipment updates and replacements, training for all users, data migration, and implementation.. The project is an appropriate use of taxpayer funds because transitioning to this type of technology strengthens the trust from the community and allows for increased transparency.. The project has a Federal nexus because the funding provided is for purposes authorized by section 1701(b)(8) of the Omnibus Crime Control and Safe Streets Act of 1968 (34 U.S.C. § 10381(b)(8)). I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,
