

Wisconsin Clean Cities Announces Intern Opportunity

Fall 2017 Clean Cities University Workforce Development Program

We are pleased to announce the launch of the Fall 2017 term of the U.S. Department of Energy's Clean Cities University Workforce Development Program (CCUWDP). Wisconsin Clean Cities is one of 38 Clean Cities coalitions with workforce development positions available this fall and we currently are seeking applicants for the internship. Many past internships have led to permanent positions.

The Clean Cities University Workforce Development Program is an initiative of Clean Cities, a government-industry partnership sponsored by the U.S. Department of Energy's Vehicle Technologies Program. Clean Cities strives to reduce petroleum consumption in the transportation sector in nearly 100 regions across the country. Since the creation of the CCUWDP in 2010, Clean Cities has hosted more than 300 interns in more than 60 Coalitions.

The Clean Cities internship will give students studying communications, public relations, business, marketing, engineering or environmental sciences the opportunity to grow public awareness and expand the markets of advanced vehicle technologies, alternative fuels, and practices that reduce the consumption of petroleum. Students have participated in research, outreach activities, public education, K-12 outreach, fleet events, and a vast array of transportation-related environmental projects.

Specific Wisconsin Clean Cities details:

- Opportunity to work with our dynamic Clean Cities team and stakeholders
- Position requires 20 hours per week for 14-week semester
- Position located in Milwaukee
- Approximate Internship dates: September 5, 2017 through December 18, 2017. Exact start/end dates can be negotiated
- Stipends range from \$3,360 - \$4,200 depending on academic classification

Applications are due August 11, 2017
