

“What have you done for (AQC) lately?”

(ala. Janet Jackson, circa 1986)

Perhaps you’re reading the title to this and asking, “What *should* I be doing for AQC?” Your PHO quality team has some suggestions, mostly in the form of the quick pearls for each measure, *imbedded* in the attached Quality Pearls document. In an attempt to keep it as “pearl-like” as possible, we’ve only hit the highlights for each measure. So take a quick read, but as always please reach out to any member of the quality team with questions or additional support you need from us. Our contact information is below.
