Take Care of Others

It has become an ongoing reaction by our doctors when we whip out our Med Schedule, *Wow, where did you get this?* It's a showopper and an invaluable aid in our elder caregiving. We really don't know what we'd do without it. ☺

Be Ready for Any Emergency

“THANK YOU FOR THIS SITE. I have referred many people to MyMedSchedule for their own family members because it is so helpful and easy to use. When my Mom was taken and admitted to Irvine Regional Hospital...the triage nurse THANKED ME for the med schedule...so I am now thanking you too.”

Multiple Healthcare Providers

MyMedSchedule will help all your healthcare providers know what medications you take. This can help them identify dangerous drug interactions and select the right treatment for you. Show your MyMedSchedule to the doctor, dentist, or pharmacist every time you visit.

Avoid Confusion and Stay on Track

“The mobile app with the iPhone is great. It's so easy to use and comes in handy if I'm ever caught at an appointment without the paper list of my meds. When I got home from the hospital after my transplant, I was taking 15 different drugs. MyMedSchedule helped me get organized and stay on track, and it has made my life so much easier.”
