

## Frontiers in Psychiatry

Friday, April 12, 2019 ◆ Dearborn Inn Dearborn Michigan

**Jointly provided by the American Psychiatric Association and the Michigan Psychiatric Society**

***Educational Objectives . . . At the end of the educational activity, the learner will be able to:***

- Understand the importance of measurement-based care (MBC) for optimizing patient outcomes and clarify perceived concerns about incorporating MBC into their current practice environment
- Understand the relationship of MBC to eligibility for quality payments through MIPS and APM under MACRA
- Introduce and describe features of APA's PsychPRO Registry, including its use:
  - For quality reporting,
  - For meeting MOC Part IV requirements,
  - As a quality improvement tool in MBC and in quality measure development.
- Understand the biological rationale for using biopsychosocial approaches in pain management
- Understand how to rationally target complex symptom presentations for treatment
- Understand the various mechanisms of pain and how non-pharmacological approaches can be used effectively
- Understand the concept of a pain care pathway and how it can be integrated into a treatment plan
- Understand the role of self-management and where to place it in a comprehensive treatment plan
- Understand the clinical uses of ketamine as an antidepressant.
- Become familiar with the data about ketamine as an antidepressant.
- Consider ethics and in which patients to use ketamine as an alternative treatment for depression
- Understand the current literature regarding mechanisms of ketamine as an antidepressant
- Broadly understand the evolving role of news and entertainment media in cultural beliefs, attitudes, and perceptions of mental health care and individuals with mental illnesses.
- Appreciate the potential underutilized opportunity news and entertainment media represent to reverse stigma and social prejudice against individuals with mental illnesses.
- Describe ethical and professional obligations and considerations of mental health professionals in media interactions.
  
- Understand the cardiometabolic risks in the severely mentally ill.
- Understand the antipsychotic agents' impact on cardiometabolic risks.
- Examine the usefulness of monitoring and interventions to reduce cardiometabolic risks in SMI and related to antipsychotic drugs.
- Understand the impact of SMI with cardiometabolic risks on Accountable Care organizations and the percentage of high utilizers.
- Develop solutions to address this high risk population
- Understand the phenomenon of Harassment in the Workplace
- Appreciate How Sexual and Other forms of Harassment Affects the Workplace Culture
- Appreciate How Sexual Harassment Affects Patient Care
- Understand What Medical Administrators can do To Preempt workplace Harassment
- Clinical and Forensic Consultation with Harassment Victims
- #Metoo and Medical Research: The NSF Report and Recommendations

**Target Audience:** This program is targeted to Psychiatrists and other Physicians.

## **AGENDA -**

**Disclosure:** The American Psychiatric Association requires disclosure by faculty at CME activities of any significant financial interest(s) or other affiliation(s) with commercial organization(s) that may have a direct or in-direct interest in the subject matter of the educational activity. A “financial interest” may include, but is not limited to, being a shareholder in the organization, being on retainer with the organization, or having research or honoraria paid by the organization. An “affiliation” may include holding a position on an advisory committee or some other role or benefit to a supporting organization.

**Faculty:**

Faculty, Gregory W. Dalack, MD; Nothing to disclose  
Faculty, Brendon Watson, MD, PhD; Nothing to disclose  
Faculty, David A Williams, PhD: Nothing to disclose  
Faculty, Praveen Kambam, MD,: Nothing to disclose  
Faculty: Vasilis Pozios, MD: Nothing to disclose  
Faculty: David C Henderson, MD: Nothing to disclose  
Faculty: Cheryl D Wills, MD: Nothing to disclose

**Program Committee**

All Program Committee members agreed to disclose any conflict of interest that may arise during the planning of CME activities and recuse themselves from any discussions where a potential bias could exist.

Eric Achtyes, MD, MS (Co-Chair): *Consultant:* Janssen  
*Grant/Research Support:* Avanir , Pine Rest Foundation, Janssen, Otsuka, Vanguard Research Group, Alkermes, Boehringer Ingelheim, Neurocrine Biosciences  
Relevant relationships reviewed by the chair.  
Michael Jibson, MD, PhD: Nothing to disclose  
Amy Rosinski, MD Co-Chair: Nothing to disclose  
Angela Pinheiro, MD, JD : Nothing to disclose  
Scott Monteith, MD: Nothing to disclose  
Theresa Toledo, MD: Nothing to disclose  
*Staff:* Jane K Sherzer, No relevant financial relationship(s)

**Evaluation Statement**

Please note that your **evaluation forms** will be provided for and completed online. This is your opportunity to let us know whether the educational objectives for this activity were met, and to comment on any aspect of the presentations. The forms also provide space for you to suggest other topics you would like to see addressed at future CME activities.

Your feedback is very important to the success of our CME program; please take the time to communicate your thoughts about the activity.

The APA will provide your **Certificate of Credit** after Evaluation Forms are handed in.

**Many thanks!**
