**After Care/Conference Care Families:**

Please note your account will be credited for those class times at the end of the program.

# Discovery Programs

FALL 2022 - EARLY CHILDHOOD CENTER

## BALLET

Instructor: Sidney

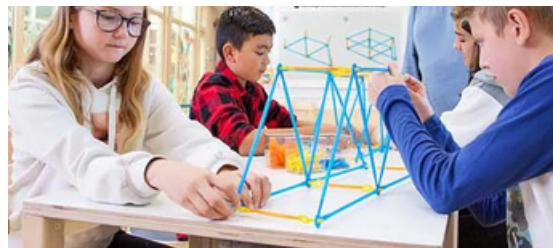

Our Ballet program is designed to help dancers create a strong foundation for years of self-expression through repetitive movement, ballet vocabulary and exploration.

## BRICK LAB

Instructor: Makayla

Each lesson challenges students to boost vocabulary, comprehension and hands-on creativity as they work together to build folktale characters and props.

## STRAWBEES - STEM

Instructor: Makayla

Strawbees is a construction set, which means it's made to build things. However, we use Strawbees as a medium for students to creatively express, test and share ideas.

## GYMNASTICS

Instructor: Makayla

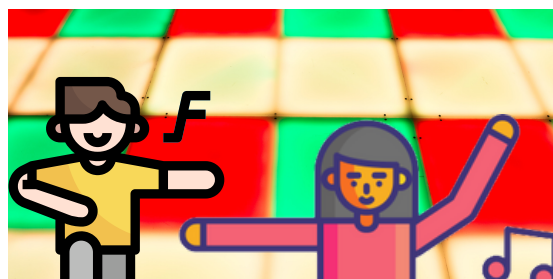

Students will increase their range of motion, stamina, flexibility, balance, and strength by learning to do cartwheels, handstands and many more fun flips!

## SPANISH

Instructor: Morah Rebecca Levy

Learning Spanish in the early childhood ages can improve a child's academic skills by nurturing listening, memory-retention, and problem-solving skills.

## ZUMBA

Instructor: Lauren

Classes combine movement, music, community and a healthy lifestyle through rocking, high-energy dance parties packed with specially-choreographed, kid-friendly routines.

**Please note:** Fees are non-refundable once classes begin.
