About the Indo-US Chamber of Commerce

The Indo-US Chamber of Commerce was founded in 1999 by Indian American business professionals in the Tampa Bay community. The goal was to create an organization that could afford like-minded individuals with an opportunity to work together, grow together, and learn from one another. The programs and services offered by the Chamber were designed to provide the professional community with the tools necessary to continuously evolve and expand their businesses. More importantly, the Chamber cultivated opportunities to network, where business relationships could be established and friendships could blossom.
