Legislative Update for the week ending 04/26/2019

Overview

Greetings readers!! The Committees are no longer meeting to discuss bills and are now gathering to work out budget details between the House and Senate. How is that going you ask? Senator Bradley, the Appropriations Chair, stated this week that budget negotiations were going well. In fact he gave them an “A grade”. This signals that we may adjourn session on time, I know many in the business are hoping for an on-time Sine Die. Here are some highlights and details of the budget in the second to last week of the legislature. The two chambers are seemingly in agreement to fund VISIT Florida at \$19 Million, a budget cut that would close the tourism agency by October 1st of this year. Some speculation exists that the agency may get a lifeline at the last minute. The House Speaker earlier this week hinted he might be OK with funding the agency for another year. For several previous years the agency has been funded at \$76M and that is what the Governor proposed this year. The House is at \$19M and the Senate proposed \$50M. We will see. It is looking like the Governor will be traveling in a state-owned plane in the coming year, for now budgeting is at \$3.8M for a plane and operations of said plane. TBARTA is poised to receive \$2.5M for their efforts in the coming state fiscal year and the Pulse Nightclub shooting memorial is slated to receive \$500K in the budget that is being formed. Lawmakers are expecting to spend about \$10B for health and human services, reducing healthcare costs has been a stated priority of House Speaker Oliva. In a \$90 Billion dollar budget, there are lots of details, these are just a few to give you a flavor of what is likely to be in the final budget.

For any budget items that the two chambers cannot agree upon through the committee chairs, those items are “bumped up” to the Appropriations Chairs, Senator Rob Bradley and Representative Travis Cummings. Funding for housing programs has been bumped up, this is a concern of many local leaders as the programs have had funds taken each year to fund items in the general budget.. This year started out with the Senate looking to fully fund the Sadowski fund and it was a pleasant surprise for counties and municipalities who rely upon these funds. Typically, the hope is to not have too much cut from the Sadowski fund, never is the hope to have the whole program funded fully. That was a pleasant surprise since the Sadowski fund is what is used to provide monies to the State Housing Initiatives Partnership Program (SHIP) and State Apartment Incentive Loan Program (SAIL) programs. After Hurricane Michael, there is certainly a demand for housing in the panhandle. Stay tuned to see how this comes out.

Hopefully you are wanting to know what has happened to the texting and driving bills in both the House and Senate (SB 76 and HB 107). We are always looking to improve safety in and on our transportation system. The Senate picked up the House version which bans texting while driving but allows other uses of hand-held electronic devices while driving, amended it to ban use of hand-held devices while in school zones and construction zones, passed it and then sent it back to the House. We now wait for the House to take the bill back up. If the House does not take the bill up, we could go another year without a primary ban on texting while driving. On the House floor, the bill was criticized for the possibility of law enforcement using the

legislation to engage in racial profiling. There is a provision in the bill that requires law enforcement to record the race of the person receiving a ticket under the texting while driving ban. We all hope this will protect our citizens from profiling. The House bill passed with a comfortable margin of votes before going over to the Senate, hopefully it can pass again.

Meanwhile, the two chambers have had long discussions about a variety of issues that are not transportation related. Bills dealing with immigration and how Florida interacts with ICE have been in the headlines and on the floor of both chambers. A state hemp program is also being discussed, new stories stating that oranges and hemp would be Florida crops made the rounds in publications. There are plenty of other issues which are concerns of our lawmakers this session, transportation has not been one of the concerns. It is good to be the topic of discussion if the main point being talked about is giving more money to transportation. This year transportation is looking to be funded at about the same level as last year so we are happy to not be a main topic. Being the main topic could lead to funds being diverted elsewhere, I am happy to be forgotten about for now.

To wrap this up, the approximately \$90 Billion state budget must be released in final form by Tuesday if we are to adjourn by the scheduled end of session which is Friday, May 3rd. This is due to a requirement that the budget be available for 72 hours before a final vote. The intent is to allow everyone to study the budget and know what is in that budget before it is voted upon. Here is hoping that draft budget is released early Tuesday afternoon. If the draft budget is made available Tuesday, details and analysis will start pouring out on Wednesday. If all goes as hoped, please look for a short MPOAC Legislative Update on Wednesday evening to give you some overview of the budget.

As always, changes to existing bills are shown in **RED** in the last section of the newsletter. Sections shown in ~~striketrough~~ represent items removed due to an amendment to a bill. Your MPOAC Legislative Update will keep you apprised of changes and amendments.

This is a summary of transportation related bills filed and published on the legislature's website as of April 26, 2019. Bills are listed in numerical order for your convenience. As the session and bills progress, this ordering of bills will make it easier to follow the status of any particular bill you are tracking. All updates to this section of the newsletter and bills shown below will be in **RED** so you can quickly distinguish between updates and old news. Sections shown in ~~strike through~~ represent items removed due to an amendment to a bill.

HB 5: Discretionary Sales Surtaxes – (General Bill by Local, Federal and Veterans Affairs Subcommittee; DeCeglie; Co-Introducers: Hill) – Similar to SB 336 by Brandes (Requires Sales Surtax referendum be held on a general election ballot only). This bill does a number of things, the primary concern to transportation is the requirement that any sales surtax that could be used by transportation and/or infrastructure would have to be put to a vote of the residents in a general election and would require approval by two-thirds of electors voting on the ballot measure to pass. The bill would also require a county wanting to hold a discretionary sales surtax referendum to notify the Office of Program Policy Analysis and Government Accountability at least 180 days prior to the vote. If not, the vote is voided. Referred to Local, Federal and Veterans Affairs Subcommittee; Ways and Means Committee; State Affairs Committee. Passed Local, Federal and Veterans Affairs Subcommittee; 9 Yeas, 3 Nays. Passed Ways and Means Committee; 12 Yeas, 5 Nays. Now in State Affairs Committee. HB 905: Department of Transportation – (Andrade) – Identical to SB 1044 by Albritton. *Editorial Notes: This bill eliminates the requirement that the Secretary of Transportation be selected from among three nominees chosen by the Florida Transportation Commission. The Secretary would be chosen directly by the Governor. Requires that 80% of the pavement in each DOT district meet DOT standards which is expected to reduce funding available for capacity expansion. Prohibits local governments from having aggregate materials specifications that are different than the DOTs. The big issue in this bill is that state statutes are changed to require that 75% of the capacity expansion funds be spent on the Strategic Intermodal System (SIS). Currently state statute requires that at least 50% of any new discretionary capacity funds be spent on the SIS and by policy the DOT spends 75%. Policies can be changed more easily than state statutes, this would take away any flexibility of the department and make it more difficult*

~~for local units of government to access state transportation funds for capacity improvements. The bill requires the department to give priority to correcting or improving sections of the interstate system that experience unusually high accident rates. If a section of interstate has non-recurring congestion that accounts for more than 75% of the total congestion, then the DOT must begin PD&E studies within three years.~~

Revises provisions related to DOT, including requirements for appointment of Secretary of Transportation, computation of mileage, pavement standards, construction contracts, use of toll revenue, allocation of transportation capacity funds, facility improvements, & project development & environmental studies. Referred to Transportation and Infrastructure Subcommittee; Transportation and Tourism Appropriations Subcommittee; State Affairs Committee. On Committee agenda-- Transportation and Infrastructure Subcommittee, 03/12/19, 12:30 pm, Reed Hall. Amendment passed on this bill in Transportation and Infrastructure Subcommittee. The amendment removed the requirement that 80% of the pavement in each DOT district meet DOT standards. Also removed is the provision that requires 75% of capacity expansion funds be spent on the Strategic Intermodal System (SIS). Providing that the Department of Transportation consists of a central office that establishes policies and procedures and districts that carry out certain projects; requiring certain preservation goals to include ensuring that a specified percentage of the pavement in each of the department's districts meet department standards by a specified year; prohibiting local governments from adopting standards or specifications that are contrary to the department standards or specifications for permissible use of aggregates and materials that have been certified for use, etc. Referred to Infrastructure and Security; Appropriations Subcommittee on Transportation, Tourism, and Economic Development; Appropriations. SB 7068: Public Financing of Construction Projects – (General Bill by Infrastructure and Security) – Similar to HB 7113 by House TED and Trumbull. This bill moves monies from vehicle registrations currently allocated to General Revenue into the State Transportation Trust Fund. The bill gradually shifts motor vehicle registration taxes into the State Transportation Trust Fund, and by state fiscal year 2021-2022, this would place an estimated additional \$135 Million per year in the transportation trust fund. This would mean a reduction in state spending in some area(s), that is not addressed in the bill. The bill also creates the Multi-Use Corridors of Regional Economic Significance Program within FDOT. Identified roadways that are to be built by FDOT are the Southwest-Central Florida Connector (Collier County to Polk County); the Suncoast Connector (Citrus to Jefferson County) and the Northern Turnpike Connector (Suncoast Parkway to the Turnpike at Wildwood). The bill requires the new corridors to be tolled and specifies these will be SIS facilities. Additionally, the new corridors would be permitted to use monies from the transportation trust fund, as a loan to be repaid, which during

construction would reduce available funds from the rest of the state. Bonding and other financing options are made available as well. Here is the description on the Florida Senate website: Creating the Multi-use Corridors of Regional Economic Significance Program within the Department of Transportation; specifying that projects undertaken in the corridors are tolled facilities and certain approved turnpike projects, and are considered as Strategic Intermodal System facilities; requiring the department to identify certain opportunities to accommodate or co-locate multiple types of infrastructure-addressing issues during the project development phase, etc. Submitted as Committee Bill and Reported Favorably by Infrastructure and Security; 7 Yeas, Zero Nays. Referred to Appropriations Subcommittee on Transportation, Tourism, and Economic Development; Appropriations. On Committee agenda-- Appropriations Subcommittee on Transportation, Tourism, and Economic Development, 03/19/19, 1:30 pm, 110 Senate Building. Passed Appropriations Subcommittee on Transportation, Tourism, and Economic Development; 8 Yeas, Zero Nays. Now in Appropriations. Favorable by Appropriations; 20 Yeas, Zero Nays.
