

# NIMMO BAY

At Nimmo Bay, you define what it means to be wild...

Discover the magnificence of the Great Bear Rainforest, with abundant wildlife and pristine landscapes from the rainforest and river valleys, up to mountaintops and 10,000-year-old glaciers. An array of adventures and daily activities offer guests access to 50,000-square-miles of pristine wilderness. Whether exploring the Broughton Archipelago on the look-out for wildlife, helicopter touring along coastal British Columbia, fishing for wild Pacific salmon, kayaking along the calm bays and inlets, or participating in a rainforest meditation - the options are plenty.

This family-owned and operated business offers locally inspired coastal cuisine, exceptional service, and private cabin accommodations, along with intimate and exhilarating adventures. Add on a relaxing massage, a yoga class, a soak in the waterfall-sided hot tubs or a visit to the floating, wood-fired sauna, and you have the ingredients for a truly unforgettable wilderness experience.

Nimmo Bay operates seasonally, from early May to the end of October. This time frame allows for a great deal of variety from Mother Nature, including seasonal availability of certain activities and wildlife viewing opportunities. Please check with the Nimmo Bay team to discuss which season best suits your group's unique interests and intentions.

Enhance your stay with a variety of customizable excursions and experiences: Coastal Safaris, Helicopter Adventures, Wellness Experiences, Culinary Journeys, or a Couple's Retreat.

Nimmo Bay offers 3, 4 or 7-day trips, with set arrival and departure times. As a fly-in lodge, getting to your destination is all a part of the adventure! Guests can choose to arrange private travel or board one of the resort's charter options. The reservation's team is available to assist with all options and will help to plan and organize transfers from Vancouver onwards.

If you can imagine it, the Nimmo Bay team can make it happen! Contact them today for more details, rates, and availability.
