

NCWorks NextGen Mentorship Opportunity

The Mentorship Mission:

The NCWorks NextGen Career Center matches its young adult participants with industry mentors in the Johnston County area, to aid the participant in their search for career success.

Through this positive mentor/ mentee relationship, participants will grow and develop, gaining the support needed to help reach their career goals.

Why Become A Mentor?

- Pay it forward!
 - ◆ Remember how hard and stressful it can be starting a career. You can help make the transition easier for a mentee.
- Set the tone for your industry to people just entering the workforce.
- Think about the impact you can make on someone else's life!
- Be able to share your passion and life experiences with others.
- Help bridge the generational gap.
 - ◆ This can be a positive learning experience for both the mentor and mentee.
- Build long lasting relationships in your industry.
 - ◆ You never know, your mentee could become a great future network!

If you are interested in receiving more information about this opportunity, or would like to fill out a mentor application, please contact our Business Services Specialist Christina Thompson.
