

RE: Open Letter and Information Package - The Truth about SARS-CoV-2 /n Covid-19

We, as concerned residents of British Columbia, are serving you this package which addresses specific topics and questions. It sources international evidence-based material by well-respected scholars and professionals including leading scientific experts in the fields of virology, biochemistry, immunology, occupational health, medicine, journalism and economics. Censorship may attempt to silence, but it does not negate their presence or their opinions.

We request you thoroughly review the documentation and questions contained within the attached "Nurses Report" and "Feb22 Questions for MLA" documents. These documents have also been served recently to each MLA in BC as well as various municipal mayors and councilors with the expectation that some of these important issues and questions be raised in session and answers provided by our elected representatives. It is our expectation that Church directors become familiar with the information contained herein and raise these important issues and questions with your colleagues and constituency.

We further request your viewing and reading of this important video and report linked below:
