

PEOPLE'S FREEDOM NETWORK

WELCOME! WHEN YOU RECEIVE THIS EMAIL, IT HAS NOT REACHED ITS FINAL DESTINATION!

This message has to reach millions of other Canadians. Please send this on to give them a breath of hope — so they can join thousands standing up and taking action to restore our liberties.

In doing this, like the one who sent this to you, **YOU** become an essential part in a national People's Freedom Network.

Every week you will receive updates, information the media will not give you—breaking news, action alerts and more.

JUST DO THIS: Send this email in a BCC (blind copy) to at least 5 recipients—from among the groups you are a part of, acquaintances and friends—**DON'T FORGET to keep the list for next time—they'll be depending on you to hear more!**

IF YOU ARE NEW AND MISSED THE FIRST MESSAGE YOU CAN GO TO FreedomInAction.ca AND FIND IT THERE.

UPDATES AND ACTIONS—FOCUSSING ON RALLIES

1. THE TIME TO STAND TOGETHER IS NOW!

GOOD NEWS! the government has made a critical mistake In declaring vaxxed people must carry “vaccine passports” to prove they’ve been jabbed. This will force people to see at last what is coming, and they won’t like what they see because the “restrictions” will actually be *on them* as well as the unvaxxed. *They* are the ones that must forever be “showing their papers”. If they ever decide not to take one of the ever-increasing number of new booster shots they’ll become one of the “unvaxxed”. The coercion is now obvious to all.

After so successfully separating us for a year, in this one mandate they have brought us together again! *Both vaxxed and unvaxxed are targeted.*

You can see this in this poll. It shows a large proportion of the vaxxed population has joined the unvaxxed in saying “no!”

Government employees, police and essential services are rebelling. Record numbers of people are attending protest rallies taking place almost daily in urban centres all across the country

Millions are rising up.

YOUR ACTION: Look for rallies near you in the next days and weeks and join them. Stand with others and make your voice heard.

If you haven’t been to a rally yet, they are almost universally high energy, positive, multi-generational, fun events. (See The Impact of Rallies top of page 3).

2. RALLIES ON WEDNESDAYS — THIS WEEK: CITY HALLS

SEPT 15 12-2PM LOCAL TIME Carry signs. Gather with others at City and Municipal Councils across Canada. Remind all elected public servants that their duty is to serve the people, and to protect public health and community well-being. They have clearly failed us and themselves on all counts and they will not stop unless we stand up. We must come together and hold them to their oath of office

YOUR ACTION: Contact friends and acquaintances. Remember, we are looking for a new way. This can be fun. Take things to eat and drink. Instruments to play. Information to hand out is easily available — check TakeActionCanada.ca; VaccineChoiceCanada.com, BeingFree.ca and the Freedom links at the bottom of the first page. *In our next People's Freedom we'll describe strong tools for you to use — Letters of Liability.*

3. U.K. RALLIES WIN! THE U.K. DITCHES THE VAXXPOT

GOOD NEWS! This week other side blinked. Months ago people were in the streets of London, at first just a few, the warriors, outnumbered by the police, fined and jailed. But the intimidation and censorship didn't stop numbers from climbing.

It finally it was a shared visceral “No!” to the threat of vaxxports that drew hundreds of thousands into the street in march after march. When the people stand together, and say, “No!” The government must fold. And the UK officially “shelved” the vaxxpot this week. The people—together—won! [See report here](#)

Boris Johnson IU.K.Prime MInister

YOUR ACTION: Giving hope is the first step to empowering others to stand together. Together we are strong. Tell 5 people in the next three days how people rising up week after week killed the vaxxport in the UK. The media won't. Let people see that we can end talk of vaxxports in Canada too!

4. WORLD-WIDE RALLY — SEPTEMBER 18

GOOD NEWS! An International Freedom Movement has emerged—now in 40 countries—that is building alternatives to established power structures, and ways of living. People around the world are saying “Enough Is Enough” and are refusing to comply with overbearing restrictions, and they're helping others gain the confidence to begin their journey of non-compliance. We are standing for our fundamental human rights, for our constitutionally protected freedoms, and for the end of the excessive coronavirus restriction measures. <https://worldwidedemonstration.com>

Now we will stand up. One Weekend. Everyone Together.

YOUR ACTION: Find out more. Join with others. Create a local.event. For more information on coordination of the Sept18th Rally day join one of these Telegram groups: Nationwide: [Worldwide Canada](#). Victoria: [Vanisle Threads](#). (To get on Telegram go to worldwidedemonstration.com and click on the Join Telegram link in the upper right)

POWER COMES TO THE PEOPLE WHO GATHER TOGETHER

They didn't mask us, socially distance us, lock us down and keep us from gathering—for our health!! Such a thing has never happened before. No. We were silenced censored and separated to stop us from talking to one another and sharing what we see, what we know and what we think.

TOGETHER WE ARE ONE ★ TOGETHER WE ARE STRONG ★ TOGETHER WE ARE FREE

WHY DOES A SUCCESSFUL RALLY TERRIFY THE POLITICIANS?

There is power in unified action, in people coming together in common cause. And it strikes terror in the hearts of those who have created this COVID disaster. That's why the media doesn't show the hundreds of thousands marching every week somewhere—London, Paris, Milan, Melbourne, Montreal. That's why they ignore or misreport the peaceful, successful rallies we have in Canada. But with every censored or faked report of the rallies, hundreds or thousands more will see the lie.

The politicians know every signature on a petition represents many others who didn't sign. Every person in the street represents a thousand who also feel strongly but did not stand up. The numbers show which way momentum moves in the struggle. "They" know it—and our numbers are growing!

5. THE POLICE ARE US—AND THEY ARE RISING UP!

GOOD NEWS! Police For Freedom, an international movement that started in Spain, is being embraced by police across the world. They are saying "We are tired of the health measures that the government has given us to enforce.... We joined the police to help [civilians]. to serve and protect them...[not to] enforce laws that are illegal, that are completely against our fundamental rights." To learn more go to www.policeforfreedom.org. In Canada, within two weeks, 2,000 police signed on to the movement and the number is climbing rapidly.

A critical turning point was reached last week when officers in Ontario indicated intent to file against a police chief for criminal behaviour during COVID.

This may be just the beginning. Many in the rank and file are at their limit enforcing orders terrorizing the public they joined up to protect, and are considering charging their superiors for criminal violations of Charter of Rights during COVID.

NOTE: When the government mandated the job for everyone, many police become one of us, and are much more able to relate to where we are coming from in resisting the tyranny.

YOUR ACTION: Make copies of this pocket poster image to give to police you see at the rallies or in the street. Most will be glad to learn that there is pushback to unlawful orders. Oh! and deliver some to your nearest police station as well!

AN INTERNATIONAL MOVEMENT

www.policeforfreedom.org

OF POLICE FOR ALL OF US

**"WE ARE HUMAN BEINGS,
SERVING AND PROTECTING
OTHER HUMAN BEINGS."**

The mission of this international movement is to dehumanize our societies, bringing back trust and unity between the security forces and the people.

We aim to educate people about their human rights, civil liberties, constitutional rights as well as the ethical code of conduct for Police and Security Personnel.

**JOIN US IN RESTORING UNITY:
