

Llevando el Evangelio a través del Pan y la Tortilla
Bringing the Gospel by Bread & Tortilla
Chiapas Project Bulletin # 50 September 9, 2022

In the words of Saraí and Jónathan, two of this year's scholarship recipients, "For us it is an important and a beautiful experience to be able to help bag the food that the congregation of St. Benito shares with our brothers in the neighborhood, thanks to the gifts of our brothers in Chicago."

Today was the 48th bi-weekly delivery of groceries to families facing food insecurity in the barrio of the Church of San Benito de Nursia in San Cristobal, Chiapas. The Food Pantry is a collaborative venture between the Church of San Benito and four churches in Chicago that call themselves The Chiapas Project: Church of the Atonement, Holy Comforter, Church of Our Saviour, and St. Chrysostom's. Packaging the food is a communal project led, today, by students who are among the scholarship recipients.

The Diocese of Southeast Mexico comes to Chicago

The Right Reverend Julio C. Martín, bishop of the diocese of Southeast Mexico, will preach and preside at the 11:00 Mass on **Sunday, September 18** at Church of the Atonement, Chicago; those unable to attend can join the service at <https://youtu.be/IV7fy1YtgXk> on You Tube.

El Reverendo Julio C. Martín, obispo de la diócesis del Sureste de México, predicará y presidirá la Misa de las 11:00 del domingo 18 de septiembre en la Iglesia de la Expiación, Chicago; aquellos que no puedan asistir pueden unirse al servicio en <https://youtu.be/IV7fy1YtgXk>

Twelve of the families with their rice, beans, oil, sugar and pasta today

Update on the vegetable growing project by the San Benito Scholarship students

Part of the scholarship crew working on the environmental project.

Ready for planting; students receiving scholarships are expected to engage in an environmental project. The second half of the scholarship funds are disbursed in January after photos of the project have been presented. The San Benito students' project was featured in the bulletin four weeks ago; these photos show the completion of the excavated bed with organic fill.
