

06/21/2022

**Dear Friends and Customers,**

INTERPORT has detected in the last hours a campaign of sending fraudulent emails of the phishing type that try to impersonate our identity with a similar domain.

We inform you that we have not changed our bank accounts. Remember that if you receive an email, you must verify the domain [interport.us](http://interport.us). If it includes sensitive information (request/change), we suggest you validate it directly with our team.

We are at your service.

**Interport Management**
