What We Did Today

In the morning, we got to know each other by playing with a parachute. Then we made an irrigation system with PVC pipes. We had Code Red Guest presenters show us their robot. After lunch, we played outside, and explored the museum. We also made slime and explored frozen exo-planets.

DATE: July 17th 2017

Don't Forget

Check your email for link to more pictures!

What's Going On Tomorrow?

We will be exploring the star lab and making rockets with the CITs.

Ask Your Camper

What did your irrigation system look like ?
