

Kids Need All Adults to Report Abuse during the COVID-19 Crisis

A Resource for All Adults

Kids are Counting on All Adults to Protect Them

This means YOU! This resource is for any adult who interacts with a child. It outlines signs of abuse and neglect and where to report.

In times of crisis and economic instability, child abuse and neglect rates increase. However, reports of child abuse and neglect in Nevada have declined dramatically.

Children are not going to school, activities, places of worship and other public places where adults look out for their safety and well-being.

Trust your Gut

If something does not look safe, sound safe or feel safe-report.

Making a Report is Asking for Help and Services

When you report, you are asking for a professional to help a child and their family. You do not need proof. You are not making an accusation.

You May Be the Only Person to Act

If you reasonably suspect a child is unsafe-report. Anonymous reports are accepted from anyone. Anyone making a report in good faith is protected against civil/criminal penalty or adverse employment action. Your identity is held confidential and will not be revealed.

Where to Report 24-hours/7 days a week
