

Clifford Neuman, Ph.D.

**Director, USC Center for Computer Systems Security
USC Viterbi School of Engineering Information Sciences Institute**

Prof. Clifford Neuman is Director of the USC Center for Computer Systems Security, a Scientist with USC's Information Sciences Institute, and faculty member in the Computer Science Department where he oversees USC's computer security curricula. Dr. Neuman received an S.B. degree in Computer Science and Engineering from the Massachusetts Institute of Technology in June 1985. Upon completion he spent a year working for MIT's Project Athena where he was a principal designer of the Kerberos authentication system, widely used today on all major computer systems for enterprise network login. Dr. Neuman completed graduate studies in the Computer Science Department of the University of Washington, receiving an M.S. degree in 1988, and a Ph.D. in 1992.
