About Us

The Texas College of Occupational and Environmental Medicine (TxCOEM) is a regional component of the [American College of Occupational and Environmental Medicine](#) (ACOEM). ACOEM was founded in 1916 and it is the nation's largest medical society dedicated to promoting the health of workers through preventive medicine, clinical care, research and education. ACOEM represents more than 4500 physicians and other health care professionals specializing in occupational and environmental medicine with over 200 members in the state of Texas. The objectives of TxCOEM are to unite members of the medical profession whose interests lie in the field of occupational and environmental medicine, to encourage research and training in the field of occupational and environmental medicine, and to provide leadership in promoting the health and safety of workers, workplaces and environments.
