

here's your invitation to all attendees of the

## valley economic alliance event

**to get looped in to **free** entertainment**

---

**Free** Loop Player for your venue and open a world of **free** entertainment and digital signage for your venue.

### **premium video content**

Loop offers over 140 channels of free streaming entertainment for your venue. Choose from a huge variety of music genres, as well as channels featuring travel, action/adventure, news, sports, fashion and much more. All content can be custom programmed throughout the day, so you can play the kind of content you want, when you want it.

### **fully licensed music videos**

All of our content is **FULLY LICENSED**. Playing music in your business requires paying licensing fees, but Loop takes care of all that for you. Not only is our music streaming free, but it saves you the cost and the hassle of licensing fees.

### **digital signage**

Have special promotions, events or other deals you want to promote on your venue screens? Loop enables you to add custom digital signage! While your customers are enjoying the music and entertainment on your screens, you can also promote your specials.

### **is it really free?**

Yes! We send you a free Loop Player that you set up and there's never a cost for you. In fact, if you keep Loop on for 8 hours a day, we even PAY YOU! (learn more here: [link to Loop Rewards?](#)) Loop also provides free tech support. We cover the cost of providing free Loop Players and free entertainment though advertising revenue. However, Loop only streams 8 minutes of advertising per hour – way better than cable television.

**Register now for the Next Level Small Business Growth & Capital Summit and attend the program to receive a free Loop player. [TheValley.net/events/summit](http://TheValley.net/events/summit)**
