- North 7130N
- Redi Mask
- LDF Industries DM 1810
- Safety Director 305050
- Secure Guard
- Small Fluid Shield ("Duckbill")
- Sperian
- Western Safety 61434

Reminder: MHA has launched a new member forum to discuss and strategize efforts on PPE procurement and is encouraging hospitals/healthcare facilities to join the conversation. With businesses continuing to reopen, the difficulties around securing and maintaining PPE will only increase in the coming months, and navigating the supply chain will continue to be a challenge. MHA's effort is aimed at helping to ensure hospitals are able to secure adequate PPE supplies in both the near- and long-term. Going forward, forum calls will be held bi-weekly on Thursdays at 2 p.m. A listserv has been created for group members.

If you would like more information or would like to participate in the bi-weekly calls and/or listserv or have other PPE-related questions, please contact MHA's Kim Stevenson kstevenson@mhalink.org.
