

NIH *All of Us* Research Program

The National Institutes of Health (NIH) continues to enroll people living in the U.S. 18 years of age and older for the All of Us Research Program in collaboration with National Hispanic Medical Association (NHMA) and other partners. The overall aim is to enroll 1 million or more volunteers and oversample communities that have been historically underrepresented in research to make the program the largest, most diverse data resource of its kind. Participants will have access to their own health data, physicians will have access to new knowledge, and researchers will have access to data for their studies.

During July, NHMA convened its *All of Us* Education at the NHMA El Paso Chapter Policy Forum on July 19, 2019 to a group of 50 Hispanic providers from El Paso, TX, Las Cruces, NM, and Juarez, Mexico and announced the area's enrollment centers. The doctors were very interested to inform their families, patients and colleagues.

Follow us on [Twitter](#) and [Facebook](#) to keep up with our partnership with the All of Us Research Program. To join, visit [JoinAllofUs.org/Together](#) y en Español, on [JoinAllofUs.org/es](#). If you have any questions, please contact Ben Melano at bmelano@nhmamd.org
