

Sisterhood and Celebration Beyond Reunions

Following celebrations for their 50th reunions, many of the Magnificat women have taken things to the next level. The Class of 1964 gathers monthly for lunch, and they plan other outings and parties on a regular basis, most recently a 70th birthday party. In addition to celebrating together, they stay connected using an e-newsletter of their own, which includes a section for prayer requests. The Class of 1965 also gets together, and plans are in the making for their 70th birthday party in the coming year! Many of us are deeply connected by friendships that began at Magnificat, but what makes these women extraordinary is that their circles are growing wider and their connections stronger!
