

QuickBooks Version 2023 Released

UPGRADE NOW

1(800) 390 8169

Intuit has updated its product lineup for QuickBooks Desktop. They now only sell QuickBooks Pro and Premier products as Pro Plus and Premier Plus subscriptions in place of one-time purchase licenses. It will discontinue versions of QuickBooks Desktop 2021 and older. If you are using QuickBooks 2022, then you will have to renew it to the 2023 version in order to continue using it so it's High time to get an upgrade.

Here's what it means for **Data Security and add-on services** if you're using an obsolete/older version:

- NO PAYROLL SUPPORT
- NO BACKUP SERVICE
- RISK OF DATA THEFT AND DAMAGE
- NO Multi-currency/Exchange rate calculation
- NO SUPPORT for Credit Card Processing, e-Invoice Processing, and Direct Deposit

If you rely on payroll services in QuickBooks, then we recommend that you upgrade your account as soon as possible and take advantage of new or improved features for 2023 like **New Cash Flow Hub, the upgraded Track Vehicle Mileage function, Reports Optimization, and Improved Banking Connectivity**

To understand the Pricing for QuickBooks Desktop vs. QuickBooks Online and benefits of this upgrade, [SCHEDULE A MEETING](#) with Expert as per your convenient day and time. QuickBooks Expert will help you navigate easily in few minutes.
