# Academy Power Pole Replacement Project

## Construction Notice

LADWP will be updating its power infrastructure by replacing an aged power pole, and upgrading the conductor and transformer located at 292 Academy Street. On Wednesday, January 18, from 8 am until 3 pm, crews will use a crane to place the new power pole and make the upgrades. To complete this work and for the safety of the employees and public, Academy Street at Fowler Street, Warren Street and Hammond Street will be closed to traffic and pedestrians. The streets will reopen to pedestrian and vehicular traffic at 3 pm.

We appreciate your patience as we work to improve our power infrastructure.
