

SAIL CENTER/AAMC

The Simulation to Advance Innovation & Learning (SAIL) Center trains Residents, Nursing Staff and other medical personnel in patient care and protocols. With state-of-the-art equipment, Operating Room surgical techniques are refined, physicians' safety, health and expertise are calibrated, infection prevention and patient safety are addressed. This is an opportunity to hear from the Manager of the facility, Dr. Gerald Moses, learn about an invaluable resource in our own backyard, and experience this innovative teaching facility.
