The Women's Foundation's Appointment Project™

As part of AWL's collaboration with the Women's Foundation, volunteers from the Women's Foundation were present at AWL **events in April** with laptops to sign up AWL members for the Women's Foundation's Appointments Project.™ The Appointments Project™ is a signature program of the Women's Foundation, created to address the under representation of women on civic and governmental boards and commissions and encourage women in Missouri and Kansas to apply for these positions.

The Appointments Project™ serves as a talent bank and resource for prospective board and commission candidates. Each time there is a board or commission opening, the Women's Foundation works with potential candidates who have indicated an interest or have a skill needed for that opening. We encourage our members to sign up for this opportunity. This sign-up process takes approximately five (5) minutes. **If you did not sign up at our April events**, you may sign up now at: http://www.womens-foundation.org/a-p/.
