

Meeting one child's need.  Moving one family forward.

One Can Help was created by juvenile court attorneys and social workers who wanted to ensure that foster children, at-risk youth and struggling families could access the missing resources they needed to improve difficult lives and build better futures. Providing these resources supports social justice and better life outcomes for all.  
**Meaningful access to justice requires meaningful access to resources.**

“Our clients benefit in so many ways from this assistance which wouldn't be possible without One Can Help. And on a selfish note from the social worker side of things, they make the process so incredibly simple and fast to minimize the hurdle even more. I truly do not know what I'd do without them and am forever grateful!” Social worker
