About SDDA

The Seaside Downtown Development Association was formed in 1993 by a group of downtown business people who joined together to improve and promote downtown Seaside. The SDDA capitalizes on the unique character of the oldest resort community on the Oregon Coast. Everyone in our community has a stake in the future of downtown Seaside. The SDDA's primary focus is on the downtown district to make it as attractive, vibrant and as dynamic as possible. While the downtown district is our focus, we recognize that there is more to Seaside. This is why the SDDA believes working in cooperation with all entities for Seaside, the Seaside Downtown Development Association is an important contributing partner.
