

# Why Do You Need Cyber?

Your General Liability policy isn't enough.

General Liability (GL) policies do not cover the loss exposures covered by cyber insurance policies. Think you're not at risk of cyber attack? Think again.

- 58% of cyber loss victims are small to midsize businesses
- 36% of claims for Coalition policyholders result from a business email compromise
- Coalition SMB policyholders experienced an average claim of \$160,000

Over 90% of security incidents are caused by human error. Can you afford *not* to have cyber insurance?

## The most innovative and comprehensive coverage available

Coalition covers more of the financial, tangible, and intangible exposures your business faces as than any other insurance company

### Ransomware

A hacker has encrypted all of your files and won't unlock them until you pay a ransom. Not to worry, we'll cover the costs to restore your data and get you up and running again.

### Wire Fraud and Social Engineering

A funds transfer request is sent to your controller by someone pretending to be your CEO. The funds may be out the door, but at least you're not out of pocket — we've got you covered.

### Phishing and Data Breaches

A hacker gains access to an employee's email or breaches your network. We'll cover costs to fix the problem and breach related expenses such as credit monitoring and regulatory penalties.

**There were \$1 billion in estimated hacking losses suffered by cryptocurrency exchanges last year alone. You need the most comprehensive protection. That's Coalition.**

### State-of-the-art cybersecurity

Our cybersecurity platform includes 24/7 monitoring, automated security alerts, employee training, and security experts to prevent cyber incidents before they occur.

### Best-in-class cyber insurance

We protect the value of your business including financial, intangible, and tangible damage with up to \$15M of the most comprehensive cyber insurance.
