COME BE A PART OF MBCEA

The only association solely dedicated to contractors and erectors in the metal building industry

Where Membership Pays for Itself!

- **Continuous Learning** – 24/7 access to online training exclusive to the needs of metal building contractors and erectors and discounted prices for testing, education and training
- **Accreditation** – Assistance with achieving international recognition of your quality program
- **Connections** – Expand your network – it's not always what you know, but who you know
- **Credibility** – Increase your reputation by getting involved in a respected industry association
- **Recognition** – Reach for recognition through MBCEA's national awards program
- **Expert Advice** – Gain valuable business intelligence when you are paired with a senior-level mentor
- **Be in the Know** – Receive exclusive, advance notice of industry news and innovations
- **Get Involved** – Participate in chapter events and annual conferences for training, networking and professional growth

Where Quality Is Rewarded!

Do you want immediate respect when talking to a prospective client, employee or partner? Let MBCEA help your firm achieve the coveted AC478, the only accreditation for metal building contractors and erectors.

AC478 is the industry standard to recognize metal building system assemblers that are committed to excellence. It provides tangible proof that industry builders have the personnel, organization, experience, knowledge, management procedures and commitment to quality results.

Where We Exist to Serve You!

The sole mission of MBCEA is to support the professional advancement of metal building contractors, erectors and our industry.

MBCEA was founded in 1968 to provide programs and services to help metal building contractors and erectors to be the best they can be.

MBCEA Is a Connector

- Bringing together contractors and customers and erectors and building manufacturers
- Introducing you to local chapter-level builders with whom you can partner and share ideas
- Training for your teams, both in person and in video format
- Industry introductions at the local, state and national levels

"I've worked closely with the MBCEA for the last three years as their liaison to the MBMA and can say without hesitation that they're fully committed to improving the metal building contracting and erection industry. Although there are a number of reasons to join the MBCEA, I'm most impressed with the safety and quality programs that they've developed. These not only improve their members' businesses, but also enhance our industry as well. The networking opportunities are another valuable benefit of membership. Simply put, I see them as a dynamic organization that's continually working toward improving their chosen craft."

*-Steve Browning, President
Vulcan Steel Structures, Inc.*
