***Qualified Crane Rigging
and Signal Person
OSHA 29CFR1926.1400***

The New England Chapter of the Metal Building Contractors and Erectors Association welcomes Adam Drummond. Adam is the President of National Safety Services, LLC. He is responsible for the development and delivery of National Safety Services' nationally renowned Environmental, Health and Safety training and consulting service programs and has over 20 years experience in the safety training, consulting, and products industry.

Adam will be discussing the new OSHA Cranes and Derricks Standards. This new standard will comprehensively address key hazards related to cranes and derricks on construction worksites, including the four main causes of worker death and injury: electrocution, crushed by parts of the equipment, struck-by the equipment/load, and falls. This seminar will cover the requirements of OSHA concerning a qualified signal person for crane rigging and they will earn the certification needed to fall within the OSHA guidelines.

PLEASE E-MAIL RESERVATION FORM TO MBCEA.NEC@GMAIL.COM BY MARCH 10th
