

TOS Hungary - pictorial report

What splendid work the TOS in Hungary is doing! Without any doubt, the photos of its recent activities bringing joy to underprivileged children and adults, will put a big smile on your face! Enjoy the pictorial report here.

We thank the TOS's new coordinator, Mrs Adrienne Nagyiday, for this report. She is a founding member of the TOS in Hungary and a pillar of the TS.

We wish all the best to her predecessor, Csilla Kiss, who handed over the post in April 2015 after four years of dedicated service.

► **A week-long summer holiday** was organised in August 2015 and 2016 for needy children from the village of Tápióbicske. It was a reward for the children's fine achievements at school. The vacation took place in a TS member's home in the village of Kisekset and included a programme of excursions, craft work, horse-riding, swimming and play performance.

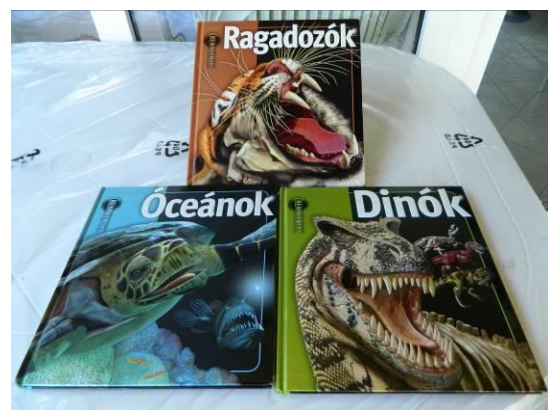

►►► **Tápióbske Activity House** (for underprivileged and gypsy children): The TOS provided regular sponsorship of their programme of activities with baked food and occasional personal participation.

► **Books were donated** to the Tápióbicske Local Gypsy Government several times for reading and 'rewarding'. The gypsy leaders are very enthusiastic about the support and activities organised by the TOS. There is of course a huge demand for help of this kind. The TOS opens its doors wide to volunteers who are not members of the TOS...

► **Different gatherings:**

- Sweets for Children's Day
- For the beginning of the school-year: schoolbags, shoes, equipment
- For Christmas: clothes, presents

On Children's Day and other occasions, the TOS supports and organises activities for a school for gypsy children in Sajópetri, a village in northern Hungary.

TOS members visit those in need in the village of Tápióbicske at Christmas in 2015.

► **Donation of clothes** (gathering, selection, delivery) to Tápióbicske and Sajópetri and to Szepsi in neighbouring Slovakia. It is not always easy to find suitable transport for the large quantity of goods gathered.

Clothing for the very poor inhabitants of a gypsy slum in Szepsi in Slovakia:

► **Summer 2016 excursion for Szepsi children to Budapest, capital of Hungary:**

► **TOS members** are scattered in different regions so they get together from time to time, bringing their families along, to deepen their bonds of friendship and discuss the progress of their work. A recent subject of discussion was the refusal of the TOS's application for government aid. The team must thus continue to work only from its own resources and the donations received.

Here we see photos of a team-building gathering in May 2016 at Makkosmária:

► Seven TOS members have been performing the **TOS Healing Ritual** once a week for five years continuously:
