Work of TOS in Ukraine

2017–2018

5th Volunteer week at the Museum Centre of H. P. Blavatsky and her family

Since 2013, the members of TOS Ukraine have been conducting repair-restoration works on the H.P.B. House in the city of Dnipro.

This was repeated once again in August, 2017. Many TS members in the Ukraine and abroad sent donations towards the purchase of building materials. During a volunteer week in 2017, most of the work was accomplished: antimicrobial treatment of facade, repaired basement and walls, hydro-protection of walls of the facade, painted the outside and inside of the place, repaired two doors, took out garbage, washed down windows and doors, and other miscellaneous, necessary works were undertaken.

Building of Cultural Centre named by H. P. Blavatsky in Pavlinka

On the map of the Ukraine there are many places marked with the staying of our Teacher, Helena Petrovna Blavatsky.

12 years ago, in the settlement of Pavlinka, North of Odesa, the Cultural centre named after H. P. Blavatsky was established. At this place was the summer farm of her granddad and grandmom, the Fadeyevs. Helena, as a young child, lived there during the summer. A house with a large plot of land and garden was purchased. A museum display was set up in one of the rooms. Systematic work is conducted for equipping it with modern amenities.

In September, 2017 a volunteer gathering was held in Pavlinka. More than 20 volunteers from the Ukraine participated. It was needed to lay out roads, erect economic buildings, prepare guest rooms, displant and prepare flower-gardens in preparation for winter. Participants successfully accomplished all these tasks. Works are also planned for building and equipping it with modern amenities in the future. We plan to create a place there for different activities of TSU to take place.

Distribution of ecological knowledge amongst students

Members from the Zhytomyr Study Centre “Shakty” search possibilities for dissemination of ecological knowledge among students within schools, for education of children’s responsibility for their behaviour and for the state of the environment. To achieve this posters were printed and distributed by members of the Study Centre to the local kids in Zhytomyr. About 80 copies were given away.

Book on Service of the Peace

During the year the Kyiv TS Branch conducted four events, related to our “Books on Service of Peace” initiative.

In spite of living in this digital era, many people still value and read paper books. Once the invitation to participate was sent, many people answered positively, and they donated children's, classics, adventure and educational literature towards Ukrainian libraries. Then on November 25, 2017 we donated about 250 books to different libraries. We hope that our books get a second life and bring benefits to the new readers.
