

Upcoming Webinar: Webinar

What is Nevada's Safety Intervention Model?

Nevada began implementing SAFE eight years ago. Short for ***Safety Assessment Family Evaluation***, SAFE is the practice model in Washoe County and in the rural counties. Clark County adopted a version of the Safety Intervention model, coined Safety Intervention and Permanency System (SIPS).

Please join us for this interactive discussion on this very important topic.

What: Nevada's Safety Intervention Model (SAFE or SIPS) - Webcast

When: Wednesday, Oct. 19, 2016 | 10 – 11:30 a.m. PT

Where: Online. [Click here to register](#)

Hosted by QPI Nevada, this interactive webcast will include discussion, the practice model overview and status updates from each region concerning implementation, training and rollout of SAFE and/or SIPS. We look forward to hearing your comments, questions and feedback during this webcast.
