

Today's childhood bullying statistics demonstrates why the Be Brave program is so imperative, giving parents an up-to-date look at the current Nevada laws and statistics on today's current bullying crisis while also providing parents and guardians with the tools to support and empower their children. This presentation answers several burning questions that many parents and guardians have when it comes to bullying in schools and what they can do about it.

Our presentation covers the following:

- Bullying Definition
- What is bullying and what is not
- Bullying Statistics
- LGBTQ Community and Bullying
- The connection between bullying, runaway and homeless youth and human trafficking
- Cyberbullying vs. Bullying
- Real Stories
- How to protect your children.
- Bullying Laws in Nevada
- Resources for parents

A University of Family Learning Workshop

Toxic Stress and High Risk Behaviors

A child's earliest years are the most crucial for brain development. Living in stressful environments can negatively affect a child's emotional, social, and physical development. Through this training, attendees will be provided with an overview of how stress can affect brain development, will learn how these changes in the brain may lead to the adoption of high risk behaviors.

Una Clase de la Universidad de Aprendizaje Familiar

Estrés Tóxico y Comportamientos de Alto Riesgo

Los primeros años de un niño son los más cruciales para el desarrollo cerebral. Viviendo en ambientes estresantes puede afectar negativamente el desarrollo emocional, social y físico de un niño. A través de esta presentación, a los asistentes se les proporcionará una breve descripción de cómo el estrés puede afectar el desarrollo del cerebro que potencialmente puede llevar a la adopción de comportamientos de alto riesgo. También compartiremos información relevante acerca de los recursos disponibles en la escuela y en la comunidad.
