Department of Family Services

Information about Foster Care

There are approximately 3,500 Children for which DFS provides services

The Foster Care Program is designed to provide a safe, stable and nurturing environment for children who had to be removed from their homes due to safety or well-being risk.

We need quality foster parents that are able to provide quality foster parenting under the most challenging circumstances. That someone would have patience, empathy, and would be non-judgmental. Someone who can provide a stable, loving, nurturing home through the ups and downs in the life of a troubled foster teen or youth.

Steps to take

1. Attend a Foster Care Information Session **1st and 3rd Tuesdays and 2nd and 4th Saturdays** of every month
2. Background check
3. Classes
