

You've accepted a placement...but now what?

**DFS will be hosting
“The First 48 Hours”
workshop to help answer
some of these questions.**

This workshop will focus on those critical hours immediately after placement. Participants will learn about the impact of separation and placement on children and teens. We will explore some common behavioral and emotional reactions children exhibit and strategies to support them through the trauma they are experiencing as a result of separation from their birth family. Foster parents will also be giving and sharing preparation tips to be ready any time....24/7!
