## A REALITY CHECK FOR HIGH SCHOOL STUDENTS

Mad City Money is a hands-on simulation that gives youth a taste of the real world - complete with career, salary, spouse, student loan debt, credit card debt, and medical insurance payments. During the simulation, they must select housing, transportation, food, clothing, child care – all while building their budget.

Students experience unexpected windfalls and unplanned expenses, just like real life. They write checks and use debit cards for their purchases, and must balance both their checkbooks and their budgets.

Participants learn how basic personal finance skills can help them avoid financial problems in the future, and gain a valuable new perspective on their choices with money.
