

Hello Parents,

My name is Janie Haggerty, I am a teacher and owner of Tech 4 Kidz. I have extensive experience working with children and have taught technology classes for over 15 years. Technology is constantly changing therefore our curriculum is continually updated. I would like to provide you with information about the classes the we offer. Tech 4 Kidz is a leader in early education computer/technology training. My classes are fast-paced, fun and on a level at which your child can relate.

These classes will give your child an advantage by teaching valuable technology and reinforced academic skills at an early age, starting at two, in small groups of 2 to 6 children. During class the children are actively engaged in learning by helping themselves and their peers with activities that foster problem solving and critical thinking skills. The curriculum is designed to prepare your child for elementary school by familiarizing them with basic technology applications and terminology as well as support academic learning and phonics. Every child uses the mouse and keyboard, starting off with the basics all the way to Microsoft Word. Also incorporated in the lessons are iPad use and terminology, including word processing. In the youngest child it develops eye-hand coordination and reinforces academics. The emphasis in Pre K and Kindergarten will be keyboarding and word processing. For parents that are concerned with screen time, this is the perfect opportunity for your child to achieve technology experience utilizing academic reinforcement while limiting screen time. Each child will receive a progress report to take home at the end of each month. I love working with children and helping them develop their amazing little minds.

The monthly tuition of \$35.00 includes 4 classes each month and is due by the first lesson of that month. There is no registration or supply fee. My scheduled day to teach is Monday mornings. I usually arrive by nine, if you need your child to have a specific time just let me know.

If you have any questions about the program, you can reach me on my cell at 817-980-6643 or e-mail me at [janie@tech4kidzusa.com](mailto:janie@tech4kidzusa.com). You can also visit the website at [www.tech4kidzusa.com](http://www.tech4kidzusa.com)

***If you would like your child to attend a free class to see if they are interested, please fill out the coupon below and place it in the payment box or take \$10.00 off your first month's tuition.***

I look forward to meeting you and introducing your child to the world of technology.

Sincerely,  
Janie Haggerty
