# Dehydrated Garlic

*Conventional Products*

The use of garlic dates back to 3,000 B.C. The garlic plant is believed to have originated in Asia, but its cultivation and culinary influence stretch worldwide. Estimated yearly production figures for garlic exceed 13,000,000 mt. China alone accounts for 75% of the world's crop.

# Dehydrated Onion

*Conventional Products*

Onion has been grown worldwide for over 5,000 years. It is easily transportable, and tolerates a wide range of soils and climates. Onion's semi-perishable properties likely helped foster survival. Innumerable early sources laude its importance, as both a food and medicinal aid.

## Onion and Roasted Onion Items
