

FROZEN Vegetables

Flash frozen IQF vegetables have opened exciting new horizons in fresh foods, supplemented by esoteric varieties such as bok choy, ginger, leeks, and water chestnuts. IQF technology provides a superior preservation process, enabling Dongsheng Foods to deliver specialty vegetables virtually identical, in texture, flavor and appearance, to their just picked counterparts. IQF vegetables are convenient, versatile and a snap to prepare. Their bright colors lend themselves to an array of enticing sauces, many steeped in regional culinary traditions, bursting with flavor.
