Yeast	<10 CFU/mL	N/A	N/A	N/A	No	No	N/A
Mold	<10 CFU/mL	N/A	N/A	N/A	No	No	N/A

Allergens: None

Sensitive Ingredients: Sulfites. >10ppm

Bioengineered/GMO Status: (Exempt) Ingredients in this product are derived from bioengineering, but are not expected to contain modified DNA or proteins derived from modified DNA as a result of a validated fermentation or distillation processes.

PFAS Status: Does not contain any perfluoroalkyl or polyfluoroalkyl chemicals, or "PFAS".

Vegetarian Status: Suitable for vegetarian status

Vegan Status: Suitable for vegan status

Halal Status: Non-Halal

Kosher Status: Not Kosher

Organic Status: Non-Organic

Prop 65: Non-applicable. No carcinogenic, developmental, reproductive health hazards.

Sewer & Sludge: Does not contain or used in production

Gluten Free: Suitable for gluten free status

Irradiation: Not made with any form of irradiation

Heavy Metals: Not made with any form of heavy metals

Origin: Florida, United States of America

Animal Testing: Not present or utilized

Product Form: Mixture

Intended Use: Food Ingredient Only

Environmental: Avoid releasing into environment. Dispose in accordance with local, territorial, national and international regulations.

Ingredient Origin: Wine	Japan	Shelf Life: Refrigerated	365 days
Salt	USA	Ambient	180 days
Flavoring	USA		
Sugar	USA	Storage: 33 F (1 C) Min.	90 F (32 C) Max.
Potassium Sorbate	China	Container:	Keep closed.
Sodium Metabisulfite	China		
Fruit & Veg. Juice	USA		

Appearance: Amber, caramel color. Clear. Sediment may develop over time. "Shake well before use" recommended for standalone retail item labeling.

Aroma/Flavor: Salty white wine with notes of sweet, crisp, acidity. Clean and distinctive of rice cooking wine.

Hazards:

Handling: Use protective eyewear, gloves and clothing. Empty containers may contain flammable alcohol vapors.

Flammability: Flammable, keep away from ignition sources.

Incompatible Materials: Do not mix with oxidizers.

Ecological: Product biodegrades readily in aerobic and anaerobic conditions, and in heat over 90 degree F.

Transport Labeling: Non-hazardous exempt per 49 CFR 173.15, contains less than 24% alcohol.

Personal: Protect skin and eyes. Flush with water if direct splash contact is made. Minor irritations can occur.

Facility: Will corrode stainless steel and erode concrete if left for long periods of time.

Ingestion: Do not ingest. Cooking wine is not potable. If ingested, consume large quantities of water.

SDS: Please refer to separate Palmetto Canning All Cooking Wine Safety Data Sheet

Regulatory: This product is intended to only be used as an added food ingredient in hot food preparation. Do not consume as beverage wine.

Permit Information: Blended and produced by De Vinco Company, a wholly- owned winery subsidiary of Palmetto Canning. TTB Winery Permit: BWN-FL-21063
