

Effective January 1, 2020, AGS Laboratories will discontinue the weekly free shipping service via Malca-Amit to and from our Las Vegas location. AGS Laboratories will be offering a weekly AGS Laboratories-paid shipment to DCWC members via FedEx for shipments having a minimum of ten (10) diamonds for normal (full) grading services with a declared value of no more than \$100,000 on Wednesdays for overnight delivery to Las Vegas. For shipments that do not meet the minimum requirements, shipping costs will be charged back to the DCWC member.

To take advantage of this updated service, clients are requested to email support@agslab.com no later than 12:00pm PT on Wednesdays, provide the quantity of diamonds, the services requested, the value of the shipment, and request a FedEx shipping label. Following AGS Laboratories grading service, the diamonds will then be returned to the client on the subsequent Wednesday via an AGS Laboratories-paid FedEx overnight shipment.
