

CONNECTING YOU TO JOB OPPORTUNITIES with inclusive businesses

Jobs Ability Canada is an Artificial Intelligence (AI) driven virtual recruitment platform. This innovative and accessible platform has been designed by and for job seekers who have a disability.

What makes Jobs Ability Canada Unique?

- Jobs Ability Canada has been built by, and for people who have a disability.
- Jobs Ability Canada is free for job seekers.
- Businesses posting jobs on Jobs Ability Canada are intentional in their disability inclusion strategy.
- Artificial Intelligence (AI) chat bot, named “Abi”, makes it easier to create your profile – highlight your skills, abilities, interests, job preferences and more.
- Real-time matching to current job opportunities based on your profile.
- Job seekers can find support and resources to enhance your job search on the site.
- Job seekers and businesses can search and connect through the platform.

By registering and building a profile with Jobs Ability Canada you will:

- Highlight your skills, competencies, interests, and education so employers can easily find you.
- Be automatically matched to employers who are looking for your skills, competencies, and interests.
- Shown jobs that match your skills and are available in your area when you add your location.

Get started by creating your profile today and connect to businesses looking for your talent at www.jobsability.ca

**The disability market touches
53% of consumers
and represents a huge
opportunity for business.**

STEPS

FOR JOB SEEKERS

1. Register

- The Jobs Ability platform is always free for job seekers
- Use your email address to create your log-in
- We never collect any personal information

2. Create your profile

- Go through each of the 7 sections to create your profile using the chat bot “Abi”
 - » Your Info » Ideal Job » Education
 - » Your Skills » Employment History
 - » Certifications/Achievements
 - » Accommodations (*this section will only ever be visible to you*)
- You can complete your profile at your own pace, all of your information will be saved as you go

3. Search Jobs and Review Real-Time Job Matches

- Jobs are recommended based on the information you provide in your profile
- You can store jobs you are interested in under the “My Jobs” tab

4. Apply for Jobs

- You can apply for any job on the platform by clicking the “Apply Now” button
- You will then be re-directed to the company’s recruitment portal to complete your application

5. Visit the Jobs Ability Training Library

- The Training Library has resources for resume building, job search, disclosure and accommodations, interview preparation sessions and communication skills training
