

Resources for Coaches found in the Member Dashboard

This week's *At Home* series provides coaches with a few top resources from the Professional > Continued Learning and Reflection competency. These resources also fit into the Communication > Pedagogy competency, as they focus on learning and teaching. The first is Dr. Kristen Dieffenbach's recorded presentation on Lifetime Learning from the 2019 National Symposium. The second resource is a link to Doug Lemov's blog, specifically on feedback and accountability through virtual teachings. Although it is geared more towards teachers, it is very applicable for coaches given the current situation where most of us have pivoted towards virtual training sessions.

Also, if you teach Level 1, Level 2, or Level 3-NTS certification courses, be sure to check out the new Level 1 and Level 2 Instructor PowerPoint presentations that have course videos imbedded in the presentations.

Professional > Continued Learning and Reflection

Dr. Kristen Dieffenbach's presentation, [Lifetime Learning: Seeking and Supporting a Culture of Excellence from the 2019 National Symposium](#).
