Introducing Conrail 11, the staff sleeping car assigned to the Office Car Special fleet. Car 11 was one of the first cars Conrail refurbished for this dedicated fleet and wore a striking shade of blue with black trim. The car had steam heat as late as 1981! Built in 1954 for the Erie Railroad as their "Spirit of Youngstown", the car carried a 10-5 sleeper arrangement.

Our car features the iconic Conrail blue with full steam heat equipment. Along the bottom of the car sits the proud "wheel in motion" logo and on the opposite side reads: CONRAIL 11. This sleeping car will complement your business car fleet as well as provide much needed support for the crew working the train!

Conrail - OCS Blue

Item # Name / Number

PRELIMINARY ARTWORK AND DRAWINGS. SUBJECT TO CHANGES OR REVISIONS BEFORE PRODUCTION.

SUPER CONTINENTAL LINE 10-5 SLEEPER CAR FEATURES:

- Track-powered interior lighting with capacitor controlled by our (often imitated, never duplicated) Rapido Lighter
- Improved design and assembly to prevent warping
- Tighter connections between the body and the roof
- Sleeper car features new Trane air conditioner details
- New couplers designed for more reliable operation when pulled or pushed
- Redesigned, free-rolling trucks
- All of this is in addition to the incredible underbody detail, multi-color interior, skirts or stairs (as appropriate) and extremely fine painting and decoration, down to the end door car names and numbers!
