The HO Scale FT Locomotive has been lauded for its many state-of-the-art features for a Rapido model. These include a close coupling system with a coupler or drawbar, tons of lighting features, numberboard and class light placements and weight that can pull a barn door off its hinges!

This run includes some neat detail variations never before seen on an HO Scale FT Locomotive. The Rio Grande A-Units feature a unique class light casting that sits on top of the nose, creating a truly odd bug-eye appearance. Western Pacific's units feature numberboards on top of the cab along with a wagon wheel-style antenna and the headlight on the roof of the B-unit. Atlantic Coast Line units feature new pilot and MU nose along with nose-side ladders.

THE FT A AND B LOCOMOTIVES FEATURE:

- **NEW! D&RGW nose class lights**
- **NEW! WP roof numberboards, wagon wheel antenna and FT B rear rooftop headlight**
- **NEW! ACL units include new MU nose, modified pilot and nose-side ladder grabs**
- Close-coupling system for great appearance on straights and curves
- Drawbar or coupler connections between A and B units
- Multiple styles of number boards, installed as appropriate
- Correct nose and windshield contours
- Three styles of dynamic brake hatch, installed as appropriate
- Steam generator hatch installed as appropriate
- Etched side and fan screens
- Heavy, die-cast chassis
- Working headlights, ground lights, number boards and back-up lights
- Full underbody details including piping and draft gear
- Separate grab irons and handrails
- Numerous road-specific details
- Full, multi-color interior
- DC/Silent (21-pin DCC Ready) or DC/DCC/Sound (ESU LokSound) options
- MoPower capacitor system for uninterrupted DCC power
- Suggested minimum radius: 18"
