

NEW LOOK BUS

Preliminary tooling sample.
Subject to revisions and refinements before final production.

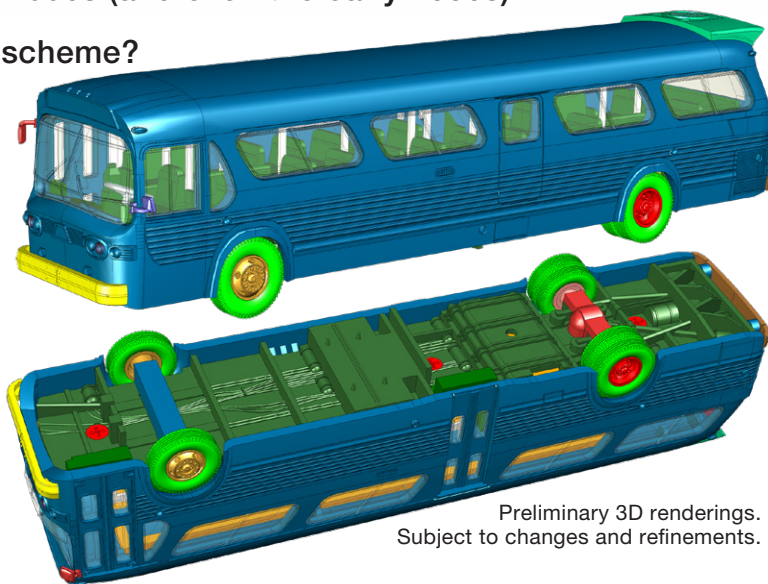

The New Look Bus was the face of North American public transit in the latter half of the 20th century, with almost 45,000 built between 1959 and 1986. Everyone remembers the New Look, also known as the “Fishbowl” Bus.

Rapido Trains is pleased to introduce its first production of the iconic New Look Bus in N Scale. This model represents the earlier generation of the New Look, but will look right at home on any layout of display from the 1960s through the 1990s (and even the early 2000s).
